

OUR STORY

Our families and volunteers form a caring community that pulls together to improve the quality of life for Canadians impacted by Huntington disease (HD). HD is a fatal hereditary brain disorder with devastating effects on both the mind and body. It is like having Alzheimer's, Parkinson's and ALS all at the same time.

The good news is, many researchers and scientists believe that once we are successful in stopping the progression of HD we will also find the answers to many other neurological diseases.

The Huntington Society of Canada raises funds to deliver counselling services to individuals and families living with HD and to fund medical research to delay or stop the progression of the disease. The Society also works with health and social services professionals who interact with people with HD, educating them on the disease so they can better serve their clients.

HUNTINGTON DISEASE FACTS

- Fatal hereditary brain disorder
- A child has a 50% chance of sharing the same fate as a parent with HD
- 1 in 1,000 Canadians is touched by HD
- Currently there is no cure for HD

HOW IT WORKS

It's surprising how quick and easy it is to raise pledges! The more pledges you raise, the MORE of a positive impact you have on those families living with HD both locally and across Canada!

Before the walk/run, register through our online fundraising site and ask friends and family to sponsor your walk in support of HD. You can also use this pledge form to collect cash and cheques.

Sports teams, service clubs, families, corporations, schools and more are invited to join us dressed as your hero!
