

ATHLETICS CANADA ROAD RACE LABEL PROGRAM & SERIES

INTRODUCTION

As stated in its 2028 Strategic Plan, Athletics Canada aims to develop an “Increased number of high-level competitions in Canada”. To achieve this Athletics Canada aims to work closely with its Provincial/Territorial Branches, Clubs, Local Organizing Committees (LOCs), and Race Organizers to develop a National Road Race Label Program and Series.

The purpose of this label program and series is to:

1. Raise the profile of Canadian races who, in turn, will offer a superior participant experience
2. Create value for race organizers serving as a valuable marketing tool with sponsors, media, governments, etc.
3. Increase the number of high-level competitions in Canada
4. Increase the number of competitions whereby Canadian athletes can earn valuable World Ranking points
5. Improve the consistency in competitive events and categories
6. Reduce the amount of travel required by Canadian Athletes
7. Help to develop athletes for future National Team representation

WORLD ATHLETICS WORLD RANKING SYSTEM – A BRIEF OVERVIEW

World Athletics has undertaken to create a global Ranking System where athletes score points based on a combination of result and place depending on the level of the competition in which the result is achieved. The ranking is then based on their average score over a certain number of competitions in a defined period of time. The calendar of the competitions, where athletes can score ranking points, is limited to competitions holding a World Athletics Label and/or Sanctioning.

World Athletics has the exclusive right to determine to which Category a given competition should be assigned. WA Label events will be categorized based on their category of label while all other World Athletics Sanctioned competitions (other than National Senior Championships) will be placed in category E. Events without a World Athletics Label or Sanctioning will not have their results processed for inclusion in the World Rankings.

More information on the World Rankings can be found on the World Athletics website [here](#).
